ASSEMBLE the table saw module and dust drawer following the dimensions in Fig. B. Mount two 2-in. swivel wheels to the bottom of the module on the side opposite the hinges. Screw the tapered sides of the T-strap hinges to the sides of the module using all the hinge screw holes. Position the module in the opening so that it’s perfectly level, supporting the end with blocks. Clamp the hinges to the bench leg and screw the square sides of the T-strap hinges to the bench leg.
