

Materials List

- 3'-diameter preformed pond (other shapes and sizes are available at home and garden centers)
- Large ceramic pot with drainage hole (3- to 6-gallon capacity)
- Four bags of sand
- A 200-gallon-per-hour submersible pond pump
- 6' of black tubing (check pond pump to determine size—usually 1/2" inside diameter)
- 1/2" threaded PVC shutoff
- Two plastic 3/8" (outside diameter) barbed x 1/2" threaded coupling (lawn irrigation system fitting).
- 8" concrete deck pier
- 6" x 8" x 12" concrete block (or two 12"-diameter concrete pads)
- Flagstones (at least 12) to ring pond

Pond equipment is available at home centers, garden supply stores and pet stores.
